【Research interest】

- Thermodynamics, kinetics, crystallography of phase transformations in metals and alloys
- Microstructure control of ferrous and non-ferrous alloys by thermomechanical processing
- Surface hardening treatment of steels
- Deformation, recrystallization and superplasticity of metallic materials
- Shape memory effect and pseudoelectricity of metallic materials

【Education】

1983 BEng Department of Metal Science and Technology, Kyoto University

1985 MEng Department of Metal Science and Technology, Kyoto University

1989 Ph.D Department of Metallurgical Engineering and Materials Science,
Carnegie Mellon University

【Professional experience】

1989.10~1997.7 Research Associate, Department of Metal Science and Technology,
Kyoto University

1997.8~2005.9 Associate Professor, Department of Materials Science and Engineering,
Kyoto University

2005.10~present Professor, Institute for Materials Research (IMR), Tohoku University

2009.11~2013.3 Deputy Director, IMR

2010.4~2013.3 Head of Integrated Materials Research Center for a Low-Carbon Society, IMR

2015.4~2019.3 Head of Cooperative Research and Development Center for Advanced Materials,
IMR

2018.4~2020.3 Deputy Director, IMR

2020.4~2023.3 Director, IMR

【Academic society】

Domestic: The Japan Institute of Metals and Materials, The Iron and Steel Institute of Japan,
The Japan Society for Heat Treatment,

International: The Minerals, Metals & Materials Society (TMS), ASM International (ASMI)

【Selected publications】
